LAS - V 2000.04	<i>Ancient-Future Worship</i>		1999	2 cassettes (67 min.)
<p>A six-part program; in the first three parts, Robert Webber of the Institute for Worship Studies offers an in-depth look at worship in its biblical, historical and theological dimensions and outlines the principles that apply to both traditional and contemporary worship. He looks at the content, structure and style of worship and includes the ministry of hospitality. In the last three sessions you will see an example of convergence worship (a blend of traditional and contemporary worship) in a fairly small congregations, characterized by immersed participation, communal gestures and bold pageantry. As you listen to ways in which the Word is delivered, to praise and thanksgiving, you also hear helpful interviews with people involved in these various ministries. There are pauses to allow for study and discussion facilitated by two guides. This is a comprehensive program on worship that will be valuable to a worship committee or to leaders looking to revitalize worship. This program and "Worship Alive: A Journey of Worship Renewal (V 94-11) complement one another. While "Ancient-Future Worship" will offer you details on the content, structure and style of worship, it does not emphasize sacred space as much as "Worship Alive...".</p>
